fitting clothes CHARTER RIGHTS INVOLVED

Attorney General Olney Notified of Abandenment of Branch Lines On Belt Line and E. and S. H. Roads-A Protest That Came Too Late Concerning No. 2 Engine Removal-Orders and Building Permits.

There was a protracted conference yesterday between General Manager Schoepf, of the Belt Line Railway Company, Messrs. Hood and Boerem, representing the property owners, and the Commissioners, re specting the alleged illegal parking and stabling of horses in the vicinity of Eleventh and O streets northwest, and incidentally other questions were introduced. Assistant Attorney Duvall's opinion, filed yesterday morning, covers the position substance, as follows:

The Belt Line Railroad Company has no legal right to discontinue running its cars as a belt line so as to compel passengers to transfer at Eleventh and O streets and at Eleventh and E streets northwest, but the Commissioners are without power to enforce compliance on the part of the company with the requirements of its charter as a belt line. Passengers who have paid the legal fare have their remedy through the courts by action for damages for breach of

contract.

The Belt Line Company has no right whatever to park its horses at the corner of Eleventh and O streets northwest; its only right as to streets is to propel cars by horse power over them. It has no right whatever the contract of a strict of the corner over them. ever to use the streets for stabling purcver to use the streets for stabling pur-poses of to allow its cars to remain stand-ing an unreasonable length of time on any portion of its line. The company is liable to criminal prosecution for stabling or purking horses on the public streets. The Commissioners are without power to compel the Eckington and Soldiers' Home Railway Company to run its cars over the North Capitol street branch. Passengers who have paid the regular fore have a right of action for damages for failure to operate that line.

UNITED STATES MUST ACT. Proceedings to enforce the charters must be instituted by the United States, but any citizen can compel the roads to operate the

citizen can compet the roads to operate the reglected branches.

Mr. Schoept was furnished with a copy of this opinion, and it was directed by the Commissioners that the attention of the Attorney General be called to the question, as to forfeiture of charter, in the case of both companies offending, and that Attorney Thomas proceed to prosecute the Belt Line, by criminal proceedings, for unlawful occupancy of the streets at the corner of Eleventh and O northwest.

Chizens of Northeast Washington, in the vicinity of Trinidad, have filed an earnest appeal for the improvement of Twelfth street east, north of Florida avenue and N street, and at various points between Trinidad and Ivy City. CONVERTED IN PRISON.

Ample Proof Exists of the Efficacy of Christian Work Among Convicts. Editor Times: Referring to the article in this morning's issue of your valued paper, entitled "No Religious Service in Jail." we desire to controvert the statement therein which reads as follows:

"Concerning the efficacy of Christian work in prison, it is stated that the records will show almost without exception that

will show almost without exception that the prisoners who have been pardoned as reformed b yreligious work have almost without exception been engaged in crime within a year."

The casual reader might be led to think from the reading of this paragraph that religious work among the inmates of jalis and prisons does not amount to anything, and is therefore useless, in other words, that while the Bible declares that "He is able to save to the uttermost all who come unto God by Him." we should add after the word "all," except those who are so unfortunate as to commit sins that are punishable by law, get found out and are placed behind the bars to serve a term of imprisonment.

Now this is false, as is abundantly proven by the testimony of men and women who can be heard at the Central Union Mission almost every night in the year—men and men who were saved in our jail or work-

The cities of our land are indebted to-day The cities of our land are indebted to-day for the great rescue mission work that is being homored by God in saving thousands annually of the wandering some and daughters of earth to Jerry McAuley, a river thief in New York, who, while serving a ten-year-sentence in Sing Sing prison, was converted, and after his discharge came back to New York and there started the great mission work which has become a recognized and important factor among the agencies for the suppression of cvil and the elevation of the masses.

That statement in your paper, Mr. Editor,

the agencies for the suppression of cvil and the elevation of the masses.

That statement in your paper, Mr. Editor, if made in a New York journal, would probably bring prompt and sharp denials from men such as Dr. Greer, of St. Bartholomew's Protestant Episcopal Church; Dr. Parkhurst, the well-known "reformer," Rev. "Steve" Mertitt, the great mission preacher of New York; S. H. Hadley, superintendent of the old Jerry McAuley Water street mission, and others. These men know that the statement is false, because they see the results of this kind of work daily.

Converted criminals, like other converted people, sometimes yield to temptation and go back juto simulness, but God can and does grandig and gloriously save men out of the jails and penitentiaries of our land.

As members of the committee on jail work of the Y. M. C. A., we wish to emphatically deny the truth of the statement made and to assure the Christian public of Washington that during the past thirdeen years the committee has been laboring among the prisoners at the United States jail we have known of scores of cases of men saved from evel and criminal lives. Saved to home in

prisoners at the United States jail we have known of scores of cases of men saved from evil and criminal lives. Saved to home, to friends, to society, to God and to heaven, and we trust that a universal appeal will be made by the Christian portion of our community to the judges of the courts call-ing for a resumption of religious services in the jail.

A MISTAKE.

The French say of a weak man, "He will never rise to a crime, but will descend to a mistake." It is a grand mistake for a man mistake." It is a grand mistake for a main naturally strong and vigorous, to allow himself to become weak in nervous energy; to allow his courage and ambition to coze out at his finger ends and to fall into that fatal condition when happiness and success are forever beyond his grasp. It need not be so when the means of relief are within the reach of all. Dr. R. A. Walker, of this city, has demonstrated his ability to make the blood pure, vitalize the nerves and circulation, strengthen the powers of nutrition, and assimilate and code, the nutrition, and assimilate and e weak, nervous, haggard man with a healthy,

animated vigor.
It must be admitted that Dr. Walker has It must be admitted that Dr. Walker has a record of cures such as has never been achieved by any other physician in the treatment of all disorders of the brain and blood, catarra, astima, consumption, dyspepsia, malaria, rheumatism, heuralgia, bemorrhoids, diseases of women, and all affections of the langs, throat, heart, liver, stomach, kidneys, bladder, bowels, and other organs.

Men suffering from nervous debility or loss of capacity, as a result of overwork, mental worry or past follies and excesses are quickly restored to sound, vigorous manhood by Dr. Walker streatment.

Mr. J. B. Gatton, a resident of Congress Heights, says:

Heights, says:

"For the past three years I have been a great sufferer from nervous debility. My entire hervous system was unarrong; I felt blue, miserable, wretched, and misanthrophic most of the t me, and was dis gusted with life. My memory was unjudy failing and I fer constantly tired and languid; I would frequently wake up in the morning feeling more fatigued than when I went to be. I tried doctors and when I went to be I tried doctors and patent medicines over and over again, but all failed to give me relef. I had about reached the conclusion that mice was a hopeless and incurable case, when I was a hopeless and incurable case, when I was induced by a friend to make one more trial, and I placed myself under the care of Dr. Walker. His treatment worked like magic. My troubles ceased, my nervos became steady, my brain clear, and life talked with dozens of Dr. Walker's pa-tients, and ah are joud in their praise. I have been employed for the past year at the St. Elizabeth Insane Asylum, at Anagress Heights.
